

Brynmor J. Davis

302 Avondale Avenue
Champaign, IL 61820, USA
(USA) 857-204-2643

bryn_davis@hotmail.com
bryn@illinois.edu
<http://optics.beckman.uiuc.edu/bryn/Brym.html>

RESEARCH INTERESTS

- Stochastic Signal Processing
- Electromagnetics and Acoustics
- Microscopy
- Inverse Problems
- Statistical Optics
- Spectroscopy
- Computed Imaging
- Ultrafast Optics
- Nanotechnology

EDUCATION

| | |
|--|---------------|
| Ph.D. – Boston University , Boston, Massachusetts, USA | March 2006 |
| ▪ Electrical and Computer Engineering | |
| ▪ 4.0/4.0 Grade Point Average | |
| M.S. – The University of Arizona , Tucson, Arizona, USA | July 2001 |
| ▪ Electrical and Computer Engineering with an Optical Sciences minor | |
| ▪ 4.0/4.0 Grade Point Average | |
| B.E. – The University of Canterbury , Christchurch, New Zealand | December 1998 |
| ▪ Electrical and Electronic Engineering | |
| ▪ First Class Honors | |

Related Graduate Courses

| | | |
|--|---------------------|---------------------------------|
| Image Reconstruction and Restoration | Random Processes | Statistical Pattern Recognition |
| Recursive Estimation and Optimal Filtering | Computer Vision | Advanced DSP |
| Diffraction and Interferometry | Medical Optics | Information Theory and Coding |
| Non-linear and Ultrafast Optics | Fourier Optics | Detection and Estimation |
| Subsurface Sensing and Imaging | Quantum Optics | Advanced Discrete Mathematics |
| Discrete Stochastic Models | Error-Control Codes | Digital Image Processing |

EXPERIENCE

| | |
|---|-------------------------------|
| Creare, Inc. Hanover, New Hampshire, USA | October 2009-Present |
| <i>Research and Development Engineer</i> | |
| The University of Illinois , Urbana-Champaign, Illinois, USA | May 2006 – September 2009 |
| <i>Postdoctoral Researcher - Optical Inverse Problems, Imaging, Spectroscopy, and Coherence Theory</i> | |
| ▪ Designed data inversion algorithms | |
| ▪ Derived physical models for optical microscopy systems | |
| ▪ Developed coherence theory for pulsed-light sources | |
| The University of Illinois , Urbana-Champaign, Illinois, USA | February 2007 – February 2008 |
| <i>Guest Lecturer - Advanced Coherence Theory, Nonlinear Optics, and Diffraction, Coherence and Information</i> | |
| ▪ Designed and delivered lectures in upper-level graduate courses | |

| | |
|--|-------------------------------|
| Boston University , Boston, Massachusetts, USA <i>Research Assistant - Fluorescence Microscopy</i> | May 2002 – March 2006 |
| ▪ Modeled instrument performance in different operating regimes and in comparison to other systems | |
| ▪ Designed novel microscopy methodologies | |
| The German Cancer Research Center , Heidelberg, Germany <i>Visiting Researcher - 4Pi Microscopy</i> | February 2005 – May 2005 |
| ▪ Developed deconvolution algorithms for a two-channel microscopy system | |
| ▪ Numerically estimated point spread functions from data | |
| Educational Testing Institute , Wakefield, Massachusetts, USA <i>Instructor - High School Mathematics</i> | May 2004 – July 2004 |
| ▪ Prepared adult students for a state teacher qualification exam | |
| Boston University , Boston, Massachusetts, USA <i>Teaching Assistant - Information Theory, Stochastic Processes, and Error-Control Coding</i> | September 2002 – May 2003 |
| ▪ Set and graded homework | |
| ▪ Led tutorial sessions | |
| The University of Arizona , Tucson, Arizona, USA <i>Research Assistant - Synthetic Aperture Sonar</i> | August 1999 – June 2001 |
| ▪ Characterized multi-path propagation effects | |
| NASA Goddard Space Flight Center , Greenbelt, Maryland, USA <i>Visiting Student Researcher - Correlation Radiometers</i> | June 2000 – August 2000 |
| ▪ Extended signal modeling theory | |
| ▪ Developed novel calibration techniques | |
| The Australian National University , Canberra, Australia <i>Summer Research Scholar - Fading Channel Communications</i> | December 1998 – February 1999 |
| ▪ Simulated Maximum Likelihood Sequence Detection (MLSD) over a time-varying dispersive channel | |
| COMPUTER SKILLS | |
| ▪ MATLAB | ▪ LaTeX |
| | ▪ Microsoft Office |
| ACHIEVEMENTS | |
| ▪ Awarded the ECE prize at the 2006 Boston University Science and Engineering Symposium | |
| ▪ Member of Boston men's field hockey team – 2002 and 2003 North American Premier League champions | |
| ▪ Recipient of Boston University Presidential University Graduate Fellowship in 2001 | |

Invited Talks

7. "Computational microscopy: using modeling and inference to improve optical sensing," May 2009, University of Wisconsin, Milwaukee
6. "Examining tissue with infrared microspectroscopy: challenges and opportunities," May 2009, Synchrotron Radiation Center, Stoughton, Wisconsin
5. "Computational imaging using optical interference," March 2009, University of Arkansas at Little Rock, and April 2009, University of Massachusetts, Amherst
4. "Interference and computed imaging," October 2008, University of Illinois at Urbana-Champaign, Signal Processing Seminar, and University of California, Merced, Applied Math and Physics Seminar
3. "Characterizing nanoparticles using scattering and coherent confocal microscopy," October 2008, Frontiers of Nanoscale Spectroscopy and Tomography Workshop, Inlet, New York
2. "New directions in coherent microscopy: nanoparticle polarizability determination and interferometric synthetic aperture microscopy," March 2008, University of Central Florida, and April 2008, Colorado State University
1. "Computed optical imaging and inference from interferometric spectroscopic data," March 2008, Colorado School of Mines
